(iii) FSA Farm Program actual yield records;

(iv) County averages;

(v) State averages.

(4) If the applicant or borrower's production history has been substantially affected by a disaster declared by the President or designated by the Secretary of Agriculture, or the applicant or borrower has had a qualifying loss from such disaster but the farming operation was not located in a declared or designated disaster area, the applicant or borrower may:

(i) Use county average yields, or state average yields if county average yields are not available, in place of the disaster year yields; or

(ii) Exclude the production year with the lowest actual or county average yield if their yields were affected by disasters during at least 2 of the 3 years.

(d) Unit prices for agricultural commodities established by the Agency will generally be used. Applicants and borrowers that provide evidence that they will receive a premium price for a commodity may use a price above the price established by the Agency.
